Discover an amazing experience at the Luna Spa in Granada

What is a spa?

Modern spas are the descendants of the ancient Greek, Roman baths and Ottoman baths, ancestors that have created a culture of body care and body cult that has survived to the present day.

Trough the passage of time, the facilities have been modernised, allowing the creation of multifunctional spaces consisting of different pools with water games and different temperatures, saunas and contrast showers that help to relax the body and mind.

At Gran Hotel Luna de Granada, we have modern and complete facilities where you can relax and unload your body of daily stress and tensions, enjoy a pleasant bath, and a delicious tea either alone or in the company of your loved ones.
